UltraTech Cement Limited

Mumbai, 21st May, 2019

Press Release

Commissioned World's First Zero Discharge Ready Mix Concrete Plant

UltraTech Cement on its efforts towards sustainability and innovation has developed in-house technology to use all waste generated from the rejected concrete in the form of waste sludge or slurry for recycling into Ready Mix Concrete ("RMC") production. This technology is fully automated and enables the plant to be real zero discharge with no water and solid waste. This eliminates the cost of waste disposal and recycling material generated out of the said process. The partial substitution of sand, flyash and water makes it a sustainable business proposition.

UltraTech Cement is proud to inform that it has commissioned **First Green RMC Plant** by using the said technology in the city of Mumbai, having zero discharge..... **A First of its' kind RMC Plant in World.**

This initiative is part of UltraTech Cement's Vision:

"To be The Leader in Building Solutions"

And,

Its Mission:

"To deliver superior value to our stakeholders on the four pillar of Sustainability, Customer Centricity, Innovation and Team Empowerment"
