

RECOVERY TRACKER

Omicron shadow on economic indicators

Travel, workplace visits, vehicle registrations – all record a fall

SACHIN P MAMPATTA & KRISHNA KANT
Mumbai, 17 January

Vehicle registrations dropped; people spent more time at home; and number of flights shrank. In the latest week, economic activity showed continued signs of being affected by the third wave of Covid, with 258,089 new cases detected

over the previous 24 hours, according to government data released on Monday. The time people spent at home was the highest in nearly six months, showed mobility data from search engine Google, which tracks people's movements using anonymised location data. It is compared to a base value for the same day of the week

in 2020 before the pandemic took hold. According to the latest data, time spent at home was 11.6 per cent higher for Indians than in the early part of 2020. Workplace visits fell from December's peak 7.6 per cent gain to 0.6 per cent growth over the baseline period. Retail and recreation visits are down 10 per cent (see chart 1).

1: TIME SPENT AT HOME HIGHEST SINCE JULY 2021

Note: Latest update is as of January 12, based on location data as processed by the company. The percentage change is compared to a baseline value for the same day of the week, calculated on a median basis during the 5-week period Jan 3–Feb 6, 2020. The chart shows a seven-day rolling average of visits to each category. Residential data refers to change in time spent at home. Source: Google LLC "Google COVID-19 Community Mobility Reports", Our World In Data

2: VEHICLE REGISTRATIONS ARE DOWN

Note: Based on road transport offices (RTOs) for which Vahan data is available. Source: Ministry of Road Transport and Highways

3: DIP IN POWER GENERATION OVER PREVIOUS WEEK

Note: Power generation based on reporting day data (million units, seven-day rolling average). Source: National Load Despatch Centre

4: MONDAY MORNING TRAFFIC CONGESTION STILL DOWN

Note: Refers to change in Monday morning (9 am) traffic congestion. Comparison is made to 2019 levels. Data for 16th January. Source: TomTom International

5: FEWER FLIGHTS THAN THE PREVIOUS WEEK

Note: Data since first Monday of January, numbers cover domestic traffic based on departing flights and passengers. Source: Ministry of Civil Aviation

6: FREIGHT GROWTH IS HIGHER

Note: For seven days ending Sunday, January 16, 2022. Source: Indian Railways

Government vehicle registration data showed a 17 per cent drop compared to 2021 for the week ending January 16. It was down 21 per cent compared to 2019 levels for the same period (see chart 2). Power generation last week remained higher on a year-on-year basis but was down marginally week-on-week with winter keeping demand in check in most parts of the country. Power utilities across the country generated 3,599 million units of electricity on average per day during the week ended January 16, 2022 (based on reporting day data), down 2.3 per cent from 3685 MUs in the previous week. Power generation last week was, however, 5.2 per cent higher than in the corresponding week in FY21 and 9.4 per cent higher than in the corresponding week in FY20 (see chart 3). Monday morning 9 am traffic was down 60 per cent in New Delhi compared to a 55 per cent drop seen in the previous week, showed data from global location technology firm TomTom International. Mumbai traffic was down 68 per cent, compared to a 69 per cent drop seen in the previous week (see chart 4). The number of domestic flights fell to 14,334 compared to 17,775 in the previous week. The number of departing passengers also fell correspondingly (see chart 5). The Indian Railways showed a higher year-on-year growth in goods carried. It rose to 10.23 per cent from 7.79 per cent in the previous week. Growth in the money it made from carrying the goods (freight revenue) was up 15.26 per cent compared to 11.2 per cent in the previous week (see chart 6).

Business Standard tracks these indicators as a way of getting a more current picture of how the economy is doing. Official macroeconomic data is often released with a lag. Analysts globally have been tracking similar indicators as different countries imposed restrictions to control the Covid pandemic. Google data is released with a lag. The latest is as of January 12. All data is as of Sunday, January 16.

Beijing Olympics tickets won't be publicly sold due to Covid situation

REUTERS
17 January

Tickets for the Winter Olympics set to begin on February 4 will be distributed to "targeted" groups of people and will not be sold to the general public, the organising committee said on Monday, in the latest setback to the Games inflicted by Covid-19. Organisers had said in September that there would not be any international spectators at the Games, under Covid-19 prevention policies that have all but shut China's borders to international travellers.

It cited the "severe and complex" Covid-19 situation and the need to protect the safety of Olympics person-

nel and spectators in Monday's announcement.

Local spectators who receive tickets must observe strict Covid-19 prevention measures before, during and after attending Olympic events, the committee said. It did not give further details, or further specify how tickets would be distributed. China, which has largely managed to curb local Covid-19 infections, is scrambling to prevent the spread of scattered outbreaks of the highly infectious Omicron variant just as the busy Lunar New Year travel period begins.

The Olympics, to be held in the Chinese capital and neighbouring Hebei province, will take place in a "closed loop" that will keep athletes

and other Games personnel separated from the general Chinese public. Most participants will arrive on special charter planes. Last month, North America's National Hockey League said its players would not participate in the Olympic tournament in Beijing due to Covid-19 disruptions of the league schedule.

Notes:

- The above results have been reviewed by the Audit Committee and approved by the Board of Directors at their meetings held on 17/01/2022.
- During the three months ended 31/12/2021, pursuant to completion of prior tax assessments, the Company has (i) reversed accumulated provision for tax amounting to ₹323.35 Crores and (ii) accrued Minimum Alternate Tax Credit Entitlement of ₹211.86 Crores.
- Exceptional item represents an amount of ₹164 Crores for the nine months ended 31/12/2020 and year ended 31/03/2021 as one-time expense upon receiving an order dated 17/07/2020, issued by the Hon'ble Supreme Court denying the Company's claim of capital investment subsidy sanctioned in 2010 under Rajasthan Investment Promotion Scheme -2003. Further, an impairment provision of ₹57.92 Crores had been made during the nine months ended 31/12/2020 and ₹96.74 Crores during the year ended 31/03/2021 towards old advances for purchase of certain land wherein the Company has reassessed its ability to recover such advances.
- Key Standalone Financial Information:

₹ in Crores
